

DENVER BOTANIC GARDENS

Resolution

Denver Botanic Gardens
Design of Waring Garden

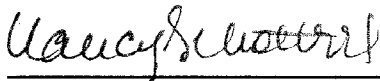

NOW THEREFORE BE IT RESOLVED;

The Denver Botanic Gardens Board of Trustees approves the design of the Waring Garden as presented on March 22, 2011, and approves its construction upon the completion of sufficient fundraising.

With respect to neighborhood concerns, we set the following policies to be followed unless or until such time as changes are adopted by the Board, with the opportunity for the neighbors – through the Neighborhood Advisory Committee, to provide further advice on the matter.

1. Staff will continue to be instructed to avoid parking on neighborhood streets during normal business hours, with the exception of major event days;
2. The Waring Garden will not be the source of sound created by musical instruments and/or amplification. Likewise, it will not be used for weddings;
3. The Waring Garden will not be a site for vending.

APPROVED on this twenty-second day of March, 2011.

Nancy Schotters
Board Chair

Anna Maria Larsen
Secretary of the Board
