

Mobility 2.3.4 Transformative Streets draft-1 (190501)

East Central Area Plan — Congress Park

Source: East Central Area Plan Draft 1 CPD web 190501

Date: 190923

Pedestrian And Bicycle Intersection Safety

Neighborhood Traffic Calming

Mobility Hubs

High Comfort Bikeways

New And Widened Sidewalks

- Install Missing Sidewalks
- Widen Narrow Sidewalks

TRANSFORMATIVE STREETS

Prioritize Walking, Biking, Rolling and Transit Along Key Corridors That Connect People And Places

York/Josephine Streets Between 6th and 23rd

- **Improve transit speed and reliability** & add amenities at stops.
- Increase transit frequency and hours of service.
- Install a high comfort bikeway between 7th and 12th to connect to Denver Botanic Gardens.
- **Study the feasibility of two-way conversion.**
- Create a **high quality** pedestrian space with new and improved crossings for pedestrians and bicycles.

Colorado Boulevard Between 6th and 23rd

- Create a greater separation between the sidewalk and the roadway.
- Create a **high quality** pedestrian space with new and improved crossings for pedestrians and bicycles.
- **Improve transit speed and reliability** & add amenities at stops.

Colfax Avenue between Broadway and Colorado

- **Implement planned pedestrian crossing improvements and transit efficiency and reliability** via implementation of Colfax Bus Rapid Transit (BRT).

14th Avenue Between Broadway and Colorado

- **Install a protected bike lane.**
- Create a **high quality** pedestrian space with new and improved crossings for pedestrians and bicycles.
- **Study the feasibility of two-way conversion.**

13th Avenue Between Broadway and Colorado

- Provide a greater separation between the sidewalk and the roadway.
- Create a **high quality** pedestrian space with new and improved crossings for pedestrians and bicycles.
- Study the feasibility of two-way conversion.

12th Avenue Between Broadway and Colorado

- **Improve transit speed and reliability** & add amenities at stops.
- Conduct corridor study that includes 11th Ave and 12th Ave to determine community preference and best placement for transit and bicycle facilities.
- Coordinate with Quality of Life improvements from Cheesman Park to Colorado Boulevard and **improve Colorado Boulevard intersection.**

6th/8th Avenues Between Broadway and Colorado

- Provide greater separation between the sidewalk and the roadway.
- Create a **high quality** pedestrian space with new and improved crossings for pedestrians and bicycles.
- **Provide transit speed and reliability improvements at key locations and stop amenities.**
- Study the feasibility of two-way conversion.

7th Avenue Between Colorado and Williams

- **Install a protected bike lane.**
- Create a **high quality** pedestrian space with improved crossings for pedestrians and bicycles.
- Explore installing a multiuse path on the parkway with limited access for vehicular cross traffic.
