

November 30, 2020

Dear Ms Levinsky,

Congress Park Neighbors Inc. has done a survey of neighbors regarding the Landmark Designation Application for the Stahl House at 1272 Columbine St. to assess concerns that they might have regarding its designation. Beginning October 27 2020 the announcement from Kara Harn concerning Landmark designation for the Stahl House was published on our website, <https://www.congressparkneighbors.org>

Our survey was first published on Nov 20, 2020 to various media in Congress Park and was open for response to anyone requesting our email, subscribing to our Face Book/Twitter pages and to Nextdoor for Congress Park. Attached to the information was a video https://youtu.be/zsZO5_efZ2E of the current owner describing the scope of work that was required to restore the house and her desire to have it designated. Also included were documents describing its history. The final invitation to respond to our survey to the same set of media was published on Nov 27 2020.

All of the feedback was in favor of the designation. As a result of the survey responses, the Board and the Historic Preservation Committee of Congress Park Neighbors, Inc. can support this application. We are attaching the results of our survey to you.

Thank you for making us aware of yet another significant historic home in our neighborhood.

Regards,

Vicki Eppler

President, Congress Park Neighbors, Inc.

cc: Councilman Chris Hinds, Council Aide Teresa St. Peter
