19:18:44 From Charlotte Redden : What can CPN do that we aren't doing to

19:23:12 From Hana Ruiz : Victoria I will email those flyers to share for

19:23:27 From Victoria Eppler : thank you
19:28:11 From wendy moraskie : Can someone give an overview of brt and
where that's at?
19:32:59 From wendy moraskie : I can give my usual commercial for the
newsletter, if needed
19:34:54 From wendy moraskie : Yes, I pay for composting, but not trash or
recycling at present
19:35:47 From Eleni Sarris and Jeff Harbaugh : And many of those residents
of the units want to recycle and compost too
19:36:02 From Maggie Price : Yes they do
19:36:33 From Eleni Sarris and Jeff Harbaugh : It is a tax on the poor and
those on fixed incomes to pay for basic services
19:37:06 From Eleni Sarris and Jeff Harbaugh : It will create some illegal
dumping
19:37:27 From Charlotte Redden : There is not room for all the bins
currently in my neighborhood
19:38:19 From Jacqueline Altreuter : for solid waste they said they would
subsidize for low income
19:38:44 From Eleni Sarris and Jeff Harbaugh : We have asked for more
information and not gotten any as to how that might work. No one seems to know yet.
19:45:43 From Stephen Eppler : Why are the traffic and parking studies only
being done now?

19:45:50 From Charlotte Redden : Pushing cars onto 13th and 14th would be inevitable, right?

19:46:35 From Thomas Conis : what design provisions are being made to prevent jay walking?

19:46:56 From Wendy Moraskie : The maps I've seen show only one lane of traffic in each direction once brt is implemented. Is that right?

19:48:10 From Charlotte Redden : and if it is proven, then do we have any say about crushing into Congress Park?

19:48:18 From Eleni Sarris and Jeff Harbaugh : How are you addressing this in the era of COVID19 meaning that many are still working for home and not commuting. How are you addressing these data issues

19:49:43 From Charlotte Redden : Isn't Colfax also US 40. Is there any other congressed place where US 40 for travelers is crushed into 1 lane?

19:49:56 From Wendy Moraskie : RTD is currently using existing lanes. Increasing frequency of buses in the existing structure would also increase people-moving capacity...?

19:50:03 From Eleni Sarris and Jeff Harbaugh : What are the impacts to local businesses already hit hard by COVID19. I heard the biz presentation at the last meeting and it wasn't not particularly helpful. Our concern is that it will further push out and displace local businesses many of whom are operated and staff by our neighbors

19:50:31 From Charlotte Redden : so the neighbors cannot go north and south except in a few places?

19:51:05 From Charlotte Redden : Do any of the planners live in Congress Park?

19:51:44 From Maggie Price : Colfax and fillmore has a substancial amount of traffic accidents now

19:53:22 From Eleni Sarris and Jeff Harbaugh : Since Federal funds will be used to pay for part of this project, what is the Team doing to ensure language justice. Nothing was translated in Spanish or any other language unless the RNO or a community group paid for it during the East Central Area Plan process. What will the BRT team do to translate all documents and do rigorous outreach to diverse communities

19:58:31 From Maggie Price : Who will be maintaining the sidewalks (i.e. Snow removal). Already RTD does a haphazard job at snow removal at stops

20:03:58 From Wendy Moraskie : design and naming are nice, but I'm concerned that I will no longer be able to drive on colfax, once there's only one driving lane in each direction

20:07:52 From Wendy Moraskie : Painted lines lose all relevance and impact under snow

20:13:43 From Charlotte Redden : There are many reasons for neighbors to walk north and south across Colfax not only at signals. Every block has commercial destinations, for instance, or access to parks, as another reason. In essence this plan bifurcates our community.

20:14:04 From Wendy Moraskie : And outreach needs to be done in alignment with the requirements of using federal dollars

20:14:16 From Charlotte Redden : Voting on a name is not an important consideration to most of us.

20:16:05 From Wendy Moraskie : Late for another meeting. Thank you, neighbors, for speaking out.

20:20:21 From Charlotte Redden : Yes

20:28:31 From Charlotte Redden : As others here and elsewhere have stated, we are trying to tell you all that the city has a reputation of pushing dramatic painful plans onto residents. Congress Park is under siege here by the city. Can we make any difference with your plans really??

20:28:41 From Abby Abel : Thank you to everyone for your questions. If someone could please share the full list of questions with us, we'll be sure to account for these in future presentations. Please check-out www.colfaxbrt.org for more project information.

20:28:56 From Eleni Sarris and Jeff Harbaugh : Thank you for coming and presenting to our group!
