

n

19:20:33 From Emilie Helms : When will the trash discussion start?

19:20:56 From Maggie Price to Emilie Helms(Direct Message) : should be soon

19:22:54 From Thomas Conis : Emilie..that is next on the agenda

19:24:22 From Wendy Moraskie : Re: CPNews. I'm working on the summer issue this week--Articles and ads are welcome. Also, we desperately need an organized neighbor to volunteer to coordinate ad communication between our beloved, supportive advertisers and the editorial staff (um, me), If you are interested or know of someone I should check in with, please let me know at wendyrich@msn.com. It can be a good item for a resume, and I write great letters of recommendation.

19:30:20 From myles tangalin : How can we in the neighborhood have more input on changes to our services. As we receive these services and are directly impacted by changes to the system, having some say in these matters would seem equitable and fair.

19:31:24 From Anna McCaffery : Of course case have gone down because we can't address the issue until you are 2-3 days late in missing PU per your instructions when we call 311.

19:33:36 From Wendy Moraskie : So you've deployed about 3000 new 'employees' (CPN residents who now have to take the bins to the front of their houses) to address 7 incidents?

19:33:44 From Anna McCaffery : No mention of issues with streets sweeping & trash on the same days. Where are those incident reports?

19:34:32 From myles tangalin : As brought up at our last meeting. What solutions do you have for residential streets that are fully parked and do not have space for trash and recycle? With future garbage being implemented this fall, how will we deal with additional compost bins? How will increased density and additional ADU's be handled?

19:35:27 From Emilie Helms to Maggie Price(Direct Message) : FAR too many carts on the streets to work with the parked cars.

19:36:00 From myles tangalin : Who do we contact you about carts and parking? When can we expect solutions?

19:36:20 From Emilie Helms to Maggie Price(Direct Message) : Sharing carts is the solution while we are getting more carts?

19:38:07 From myles tangalin : Please provide concrete examples, with measurable solutions.

19:42:33 From Wendy Moraskie : My trash hasn't been picked up on the scheduled day for a month. So I haven't called it in until it's 2 days late. When is that a "case?"

19:45:19 From Emilie Helms : There is not enough room on the blocks for 3 carts per home and cars. Right now trucks come down the block 6 times in one day. Is there any way we can go back to using the alleys for trash as they are intended.

19:45:29 From Wendy Moraskie : Tom: was this ever answered? What happened to the smaller trucks that were bought, according to City Council, and the additional trucks that were budgeted for and promised to be bought years ago, to continue pick up in the alleys? Who ignored that situation and bought trucks that are too large for Denver's alleys?

19:46:34 From Jon Hindlemann : What are the mileage driven comparisons of your trucks during alley collection vs street collection.

19:47:42 From Anna McCaffery : I've seen no changes in favor of resident

issues regarding trash. It seems you are hell bent to make the changes you desire without our issues considered.

19:48:20 From Maggie Price : Why should we pay for service when the current service is not as good as it has been in the past?

19:48:39 From Anna McCaffery : Exactly Maggie!

19:49:20 From Wendy Moraskie : I set out my 3 bins every week. I don't want smelly bins on my property (where they are supposed to be stored, versus leaving them in the alleys or streets). I want them emptied every week as promised.

19:50:23 From Eleni Sarris : They already took a vote at LUTI, didn't they on this? So it is headed to Council very soon.

19:50:34 From Margaret Medellin :

<https://www.denvergov.org/Government/Agencies-Departments-Offices/Agencies-Departments-Offices-Directory/Recycle-Compost-Trash/Resources/Expanded-Service>

19:50:56 From Anna McCaffery : This ordinance should not even be considered until it can be proven to work, which so far no solutions have been proposed.

19:51:54 From Maggie Price :

<https://www.congressparkneighbors.org/2022/06/06/volume-based-waste-management-pay-a-s-you-throw/>

19:52:08 From Wendy Moraskie : and explain where the taxes we're paying that are currently going for trash, will be going once the fees are implemented

19:54:34 From Wendy Moraskie : So you have staff to investigate this stuff, but not enough to pick up the trash on time?

19:55:26 From Emilie Helms : There is absolutely NO ROOM on the street for the cans. They are stacked right up to cars.

19:55:38 From Emilie Helms : It is impossible to park!

19:56:12 From Anna McCaffery : The city has no plans and many many excuses why it is not working and will never work, yet they are forcing this on us.

19:56:35 From Wendy Moraskie : what can be done to get the trash/recycle pickup moved back to the alleys?

20:02:58 From Wendy Moraskie : Actually, the mileage comparison is 17 miles, once down each alley, versus more than 50 miles total, to drive up and down each street and avenue twice (once in each direction).

20:04:13 From Jon Hindlemann : That is correct. And this on street conversion was sold to the community as a more sustainable approach.

20:07:54 From Emilie Helms : I would love to circulate a petition on my block. Please reach out to me via email!

20:08:50 From Anna McCaffery : They do not look at every comment. I am living proof of that. We are ignored!

20:09:32 From art mejia : art.mejia@denvergov.org

20:28:19 From Kate McElwain : More information about Elisabeth and her campaign can be found at: electelisabeth.com

20:29:23 From Elisabeth Epps : <http://www.ElectElisabeth.com> for more info on me, my positions, our race, to donate, and volunteer!

20:35:12 From Wendy Moraskie : for Katie: how, specifically, will you promote a women's right to choose? design action on climate change? police reform?

20:41:11 From Eleni Sarris : The Apartment Association, a group that I am very familiar with, is opposed to any affordable housing and works actively against homeownership through its policy pursuits and candidates it chooses to fund.

20:42:33 From Eleni Sarris : What is the State going to do to enforce the current laws on the books.

20:43:57 From Eleni Sarris : Denver Water is taking on the lead issue by the way. Storage of water isn't really an option due to agreements already in place with water rights.

20:44:27 From Eleni Sarris : Because the police and fire are responding to sweeps and removing vehicles

20:44:44 From Wendy Moraskie : thank you.

20:44:54 From Katie March : Katie March - katie@katiemarchforcolorado.com - 970-310-6591
