June 27, 2022

Councilman Hinds,

You were used by Brian Toerber as his means to receive TIF financing.

Your repeated reading of my letter served no purpose except to showcase your zeal to possibly embarrass me. It did not.

As you can see by these attachments, I had long ago withdrawn my support for the project using TIF funds. Mr. Toerber was fully aware of that fact. He used my letter in spite of my retraction September 21, 2020. He deliberately engaged in deceitful behavior designed to promote an untruth for his personal gain. It speaks to his character. If you were aware of it, it speaks to yours.

I question why from all the letters that were part of the packet submitted to the Finance Governance Committee, that you chose to repeatably quote from a letter that I had withdrawn support from. Do you normally try to discredit a constituent in this manner? Given the circumstances it should not have been submitted and included in the packet.

bwanted to educate their neighbors about the development project? As a council person who has extolled RNO reform you must be aware of the proper procedures established by the city for RNO support/opposition. This includes documentation of meetings, subject, date and time, and number of attendees.

You have repeatedly snubbed Congress Park neighborhood when invited to participate/attend or engage with CPN, your behavior now is not surprising.

Vicki Eppler

President, Congress Park Neighbors, RNO
